Students
only**

3 WEEKS COURSE

**60 OSCE
CASES
DISCUSSION**

MEET DR SID KOTHARI

Dental Specialist (Prosthodontist)
BDS, GradDipClindent (Advanced Dentistry),
DClinDent (Pros), MRACDS (Pros)

Dr. Sid is a skilled prosthodontist with a passion for solving complex dental challenges. He graduated in 2008 with his Bachelors of Dental Science in India. After passing the rigorous Australian Dental Council (ADC) examination on his first attempt in 2011, he practiced as a general dentist for over five years, gaining valuable experience in both private and public clinics across Australia.

In 2015, motivated for his passion in dentistry, Dr. Sid completed a master's degree in advanced dentistry at the University of Sydney. Further, he was awarded a scholarship to pursue a specialist training at the University of Otago, New Zealand, where he became a certified prosthodontist. For the past five years, Dr. Sid has been practicing as a prosthodontist, known for his meticulous approach and ability to restore function and aesthetics in even the most challenging cases.

Beyond his clinical expertise, Dr. Sid has a natural talent for teaching. Dr Sid has been actively involved in teaching and mentoring newly graduated dentist and dental students in Australia and New Zealand. He spent three years at the University of Otago mentoring dental students in both clinical and simulation settings and has also taught Year 4 dental students at the University of Queensland, preparing them for real-world dentistry. He is also known to provide CPD courses for dentist in Australasia and Asia.

MEET DR MICHAEL KOLLAR

BDSc, Licensing in Dental Surgery
(Post grad Dip[loma - VIC)

Dr. Michael Koller brings over 30 years of experience as a general dentist, practicing in private clinic in Australia. With a post graduate qualification (License in Dental Surgery- LDS)in fixed prosthodontics from the University of Melbourne, one of the most distinguished and longstanding dental qualifications Dr. Koller is a trusted authority in his field.

Dr. Koller has also dedicated over three decades to shaping the future of dentistry. Since 1990, he has served as a Clinical Supervisor at the School of Dental Science, Faculty of Medicine (Dentistry) at the University of Melbourne. His deep understanding of clinical excellence, combined with a passion for teaching, makes him a sought-after mentor.

Since 2010, Dr. Koller has been extensively involved in preparing ADC candidates, helping them navigate the rigorous examination process with confidence. His expertise, combined with his ability to create a highly realistic OSCE examination environment, ensures candidates receive invaluable preparation for success.

With his uniquely Australian perspective and wealth of knowledge, Dr. Michael Koller is the ideal guide for your ADC examination journey.

Week

03

Skilled OSCE (19, 20 June 25)

Week

03

Mock Examination (14,21 June 25)

Timeline

Week

03

Skilled OSCE (14,19 June 25)

Dr. Sid Kothari and Dr. Michael Kollar will guide you through a comprehensive OSCE examination involving 60 patient scenarios over two days. They will provide insights into how they manage these cases in real clinical settings and offer valuable advice on what examiners look for in responses

- Taking a history
- Explaining a diagnosis and management plan
- Establishing a risk profile
- Communicating a health promotion strategy
- Managing a medical emergency (Syncope + CPR)
- Taking intra-oral radiographs
- Designing a partial denture
- Placing rubber dam
- Demonstrate local anaesthesia technique
- Tooth Extractions movements
- Matrix band placement
- Use of Hand instruments (Gracey Currettes)

5 Reasons Why Choose us

- 1** Expert Guidance: Learn from an experienced specialist and dentist with extensive teaching and examining experience at Australian universities
- 2** Receive detailed mock explanations for 60 OSCE cases, conducted by a specialist and experienced dentist
- 3** Hands-On Practice: Work with similar materials and equipment as ADC examination to simulate real scenarios
- 4** Chance to meet past ADC graduate to hear their stories and ask any questions
- 5** Small group to give personal attention to each student. Ongoing support after successfully completing your ADC exams.
